LeetCode

CARRER OBJECTIVE

Enthusiastic **software engineer** skilled in **C#, ASP.NET, and SQL**, seeking an entry-level **role** in the Full Stack.NET development to build scalable applications and contribute to innovative projects.

EDUCATION

ADYPSOE, Ajeenkya D Y Patil School Of Engineering, Pune

2021 – 2025

B.E - Computer Science and Engineering - CGPA - 6.39

Pune, Maharashtra

Bharat English School & Junior Collage, Pune

2019 – 2021

HSC - Higher Secondary Education - Score - 73.67

Pune, Maharashtra

EXPERIENCE

Intern at TechLeaper Systems Pvt Ltd

Jan 2024 - Feb 2024

Role - Software Trainee

Pune, Maharashtra

- Developed and put into use dynamic front-end elements for a website specializing in interior design, greatly improving the user experience.
- Using **HTML, CSS, JavaScript** (frontend) and **Java, MySQL** (backend), an e-commerce website was created and optimized for a smooth and responsive user experience.
- Designed an aesthetically pleasing user interface that enhanced the usability of the bookstore management platform for more than **200 users**, resulting in a smooth navigation experience.

PROJECTS

Gadget shop

Tech Stack: Angular, ASP.NET Core, SQL Server

Aug 2025

- Built a complete app using **Angular** for the frontend, **ASP.NET Core** for the backend, and a **SQL Server** database.
- Built REST API endpoints in ASP.NET Core for smooth CRUD operations across the stack.
- Leveraged Entity Framework for efficient database modeling, querying, and data persistence.

Finance manager

Tech Stack: ASP.NET Core MVC, SQL Server, Entity Framework

Aug 2025

- Made a clean **ASP.NET Core MVC** app for managing finances that has a structured architecture and a front end that responds to touch input.
- Combined **Entity Framework Core** and **SQL Server** to make CRUD operations and data persistence more efficient.
- Added interactive financial charts and graphs based on **Chart.js** to make the data easier to see.

ATM machine console app

Tech Stack: C# Programming

July 2025

- Made a **C#** console-based ATM simulator that lets users create accounts, log in, check balances, deposit and withdraw money.
- Applied object-oriented design and in-memory data structures to efficiently manage user accounts and balances.
- Set up full input validation and transaction workflows to ensure user interactions are reliable and error-free.

TECHNICAL SKILLS

Languages: C#, JavaScript, SQL, HTML, CSS

Technologies/Frameworks: .NET Core, Angular, ASP.NET, MVC, Entity Framework, Web Api, Rest Api

Databases: SQL Server, MySQL, MongoDB

Tools & Platform: Visual Studio, Git, Postman

Soft Skills: Problem solving, Communication, Time Management, Quick Learner

Course Work: DSA, OS, OOPS concepts, Computer Network, Software Engineering

CERTIFICATIONS

C# - FreeCodeCamp

SQL Server - Infosys

Entity Framework - Infosys

Java - Infosys

Angular - Coursera

Linux - Udemey

EXTRA CURRICULAR

- Active contributor on GitHub in **.NET, C#, Java and Spring Boot** projects.
- Participated in professional seminars and networking events to increase industry exposure.
- Learned and applied best practices in software development, including version control (Git).
